Office Action Summary

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by Kingston, US #3,968,584.

3. Kingston discloses an illumination apparatus including case 21, light source 7 located along the side of the case, and light guide plate 5 having character portions 13 formed by convex portions on the front surface of the plate (see Figures 1 and 2).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 20 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kingston in view of Hoffman, US #5,339,550.

6. Kingston does not teach a transparent cover sheet, however, such covers are well known in the art, as shown by Hoffman. Hoffman teaches cover 74 for protecting the display. It would have been obvious to a person having ordinary skill in the art to

Art Unit: 3611

utilize such a cover on the display of Kingston to provide protection for the display, as is taught by Hoffman.

Allowable Subject Matter

7. Claims 1-16 are allowed.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patents 4714983 and 4903172 are cited as of interest.
